For Whom the Bells Toll?

JOHNNY DONNE asked this question many years ago. And today, as then, the answer remains the same: the bells toll for each of us.

Life continues to be an uncertain adventure, and security for the future is a daily concern of thoughtful men and women.

Certainly there is one occasion in life when planning and foresight are necessary—that is when a man becomes head of a family and faces the responsibility for the future of his wife and children. Their security is usually his first consideration.

A life insurance program started early

and planned carefully is the surest approach to establishing this security. It will afford your wife a sure income and untold peace of mind in case she is left alone to bring up your children.

Your Missouri State Teachers Association sponsors a life insurance policy that offers its members up to \$5000 protection . . . at the lowest premiums obtainable. These low rates are possible because *premiums are based upon teacher mortality rates only.*

This insurance is sound and costs you very little for the benefits provided.

It is to your advantage to investigate this opportunity today.

"In case of death the bank pays your beneficiaries what you have saved. Life insurance pays them what you had hoped to save."

NAME

ADDRESS

CITYSTATE

This is a city council meeting in Jefferson City, capital of Missouri. What's going on? Well, Council President Harvey Hager, first on the left, has just received an award for serving his friends and neighbors for 16 years—no, not as a city council member, but as a

Standard Oil dealer. Helping him celebrate the award from Standard Oil for his success as an independent businessman are Mayor Arthur W. Ellis, second from left, Councilwoman Gladys Fisher and Councilman Robert E. Dorr.

How 2500 small businessmen won success!

What does it take to be successful in the keenly competitive business world of today?

Well, let 2,500 small, independent businessmen who found success in something they liked and stayed with tell you how they did it. They are all in the same business—all Standard Oil dealers for 15 to 20 years or more. Since their business is one of the most competitive in the world, they speak with particular authority.

Here is their formula for success, and it applies to many other businesses as well—friendliness, helpfulness and efficient service. PLUS one other vitally important factor—high quality, always dependable products—products they are proud to sell to friends and neighbors.

One other thing. Their friendliness and helpfulness have never been confined to business alone. Of these 2,500 veteran

businessmen, hundreds have served as mayors of their towns, as city councilmen, and in Red Cross, Boy Scout, Community Fund or some other community activity.

Just recently we at Standard Oil proudly presented plaques to these 2,500 successful small businessmen throughout mid-America. Now we are looking forward to the time when the 15-year mark will be reached by many more of our 16,000 dealers who are winning success as independent businessmen with their friendliness, efficiency and dependability.

*What makes a company a good citizen?

Well, one gauge is a company's contribution to the economic stability of the communities in which it "lives" and "works". Business policies and practices that help other businessmen to grow and prosper are important steps in achieving that goal.

16 years as a Standard Oil dealer. H. E. Frizzell of Billings, Montana, says: "Small, independent businessmen like myself couldn't succeed in the oil business without the aid of a big company. For example, drilling for oil may cost up to a million dollars—and the well may be bone dry. Only big companies can take such risks."

31 years as a Standard Oil dealer. R. H. Salmonson of Ortonville, Minnesota, says: "I couldn't begin to duplicate the equipment that makes up a modern refinery—even on a small scale. Today it takes millions of dollars to refine gasoline. Without a company like Standard Oil behind me, I couldn't be in business for myself."

23 years as a Standard Oil dealer. Ezra Marquie of Kankakee, Illinois, says: "There's more to the oil business than finding oil and selling it. Standard Oil, for example, invests millions annually in research to improve the products I sell and keep me ahead of competition. That's one of the big reasons my business keeps growing."

School furniture is a tool of the teaching profession. Doesn't it logically follow that money paid for good tools is a sound investment?

This No. 445 High School and College Desk is unique in the school field. It offers maximum seating comfort with full freedom to perform all tasks, left- or right-handed; has generous space between chair and writing surface; pylon-type construction provides ample legroom for all—including largest students. AMEREX® plastic top is 5 times more wear-resistant than wood tops.

Equally important, because it's built in a single unit, the 445 eliminates disturbing chair scraping. And, because desk heights and seat heights may be varied, this *one* unit can be used from Grade 7 through college.

THE COVER

It is with a feeling of genuine pride that this issue calls to the attention of the members of the Missouri State Teachers Association the highly significant improvements in the three teacher retirement systems in this state. To date no other state has gone so far so fast in this field of teacher welfare.

FILM TOUR

"Atlantic City" pictures in full color the oldest resort area in the United States and one of the most popular convention cities.

The 20-minute free film is available to all groups equipped with 16 mm sound projectors from United World Films, Inc., 542 S. Dearborn St., Chicago 5, Ill.

ENCYCLOPEDIA USE

To help teachers use reference books effectively, a new 48-page handbook for both elementary and secondary school teachers, is available free from the American Textbook Publishers Institute.

The booklet, titled "The Encyclopedia," is illustrated and contains suggestions for specific units using reference books at various age levels.

It may be obtained from the Institute, P. O. Box 133, G.P.O., New York 1, N. Y.

FUN WITH LANGUAGE

Fourteen 4-page leaflets describing methods of teaching the language arts in the elementary grades have been collected in a portfolio produced by the elementary section of the National Council of Teachers of English. All areas of language instruction from reading and writing to dramatics are covered.

The portfolio, titled "Creative Ways in Teaching the Language Arts" is available from the National Council of Teachers of English, Dept. CW, 704 South Sixth St., Champaign, Ill. It costs \$1.00.

LIVING PUMP POSTER

How the blood flows through the chambers of the heart and body is clearly shown through diagrams on a colored poster of the heart and circulatory system, prepared by the National Heart Institute of the federal Public Health Service.

Single copies may be obtained free, on request, from the Heart Information Center, National Heart Institute, Bethesda 14, Md.

MAKING STEEL

Quiz material for the highschool classroom covering the science of steelmaking is one aspect of the new "Science in Steelmaking" pamphlet.

The 16-page illustrated pamphlet is designed to stimulate interest in science studies and scientific careers.

It may be obtained free from the Public Relations Department, U. S. Steel Corporation, 71 Broadway, New York 6, New York.

CANCER

The pamphlet, "Teaching About Cancer," is designed for courses in general science, biology or health in junior and senior highschools.

It suggests how basic problems in cancer control may be presented and studied and lists teaching aids available to teachers without charge from the American Cancer Society.

It is free from the American Cancer Society, 712 East High St., Jefferson City, Mo.

GLASS—THEN AND NOW

Use of glass containers from prehistoric days to the present is described in a teaching unit, "The Story of Glass Containers," again available to teachers. The unit includes a 16-page illustrated booklet, an outline for assembly programs, a list of suggested activities and a bibliography.

It is planned to correlate with courses in science, geography, history, art and shop. The booklet explains how glass bottles have helped chart ocean currents, and describes modern methods of manufacture.

Quantity copies of the unit are available free from the Glass Container Manufacturers Institute, Inc., Department LA, 99 Park Avenue, New York 16, N. Y.

UNITY

Here's the answer to your girls' "growing-up" questions

Copyright 1946, Walt Disney Productions

"The Story of Menstruation"

by Walt Disney Productions

When eager hands start raising, ever wish you had all the answers at your fingertips? Wish granted!—when *this educational program* goes to work for you. First, there's the incomparable 10-minute movie by Walt Disney Productions: "The Story

"The Story of Menstruation" shows how normal and natural this function is. Animated diagrams help girls understand the menstrual process... appealing little Disney-style characters dramatize health and grooming hints for wholesome year 'round living. The film encourages a mature, confident attitude toward growing up. It is done with charm and taste—and has the complete approval of parents, teachers, doctors, nurses, Girl Scout leaders, industrial counselors, church groups.

"Very Personally Yours" is a booklet prepared for girls 12 and over. Its 20 interesting, illustrated pages give teen-age girls further details about menstruation, exercises, grooming, sports, social contacts. Be sure to order all you need of both booklets, so each girl has her own copy. She will want to keep it, as reference, for years to come.

of Menstruation"—supplemented by two booklets, one for pre-teens and one for older girls. More than 25 million schoolgirls have seen this 16 mm. sound and color film. You'll want your girls to see it.

"You're A Young Lady Now" gives your pre-teens added menstrual preparation. For this illustrated booklet reviews important highlights of the movie—including ways to start good health and grooming habits *now*. Tells all they need to know in terms 9 to 12-year-olds understand. Girls enjoy reading and *re-reading* this attractive booklet which helps answer their many questions. And you'll appreciate the healthy attitude it encourages in them.

Teaching Guide and Menstrual Guide

You can adapt this guide to any teaching situation—because hundreds of teachers helped plan it that way. The large color chart on menstrual physiology is useful for classroom lectures.

This entire program or any part of it is available to you without charge from
Kimberly-Clark Corporation,
the makers of Kotex sanitary napkins.

In School Photographs

Quality

IS OF FIRST IMPORTANCE

... AND THIS EMBLEM

IS A DEPENDABLE GUIDE
TO PHOTOGRAPHIC QUALITY

This distinguishing hallmark identifies the work of a member of the American Association of School Photographers. It expresses a master craftsman's pride, reflects the reputation and integrity of a photographer who subscribes unreservedly to the tenets of the AASP. It is a symbol of skill and experience in the specialized school-photography field . . . and tells you that quality materials have been used in developing and finishing. You can put your confidence in a photographer who can show you this mark of quality and skill—a *SPECIALIST* in *school photography*.

An AASP photographer provides greater services to fit your school's individual needs.

While a school administrator would always hesitate to sacrifice quality for a lower price to the student or for a higher commission to the school, remember this: photographs produced by a member of this organization are reasonable in price and our school commissions are proportionately liberal.

Lindenwood College Honors Everett Keith

Everett Keith was presented the honorary degree of Doctor of Laws by Lindenwood College at its commencement May 25.

Everett Keith, executive secretary of the Missouri State Teachers Association, was presented the honorary degree of Doctor of Laws by Lindenwood College at the 130th annual commencement of the four-year women's college in St. Charles, May 25.

Philip Hickey, superintendent of instruction, St. Louis public schools, read the citation. In part he said, "Since 1941 every significant advance in teacher welfare has resulted from Mr. Keith's genius. He has directed the fight for all that teachers enjoy today—salaries, retirement, and contract laws.

"As one goes about these United States and discusses educational problems and their solution there is almost universal acclaim given to MSTa and its secretary."

Mr. Keith was born in Buffalo, Mo., and graduated from Southwest State College and the University of Missouri. He is a former highschool supervisor and director of highschool supervision for the State Department of Education. Since 1938 he has been associated with MSTa.

He was appointed to the first State Board of Education, and served for eight years. He has been an officer and member of the Board of Managers of the Missouri Congress of Parents and Teachers. Today he is president of the National Association of Secretaries of State Teachers Associations and vice-president of the National School Public Relations Association.

FROM SCRAP TO SKYSCRAPER

America's Railroads Make the Connections!

Everything in a scrap yard, including the kitchen sink, is eventually reclaimed for a new and useful life. New steel contains a certain percentage of scrap—obsolete machinery, worn engines, discarded autos and all kinds of old iron and steel "junk." Scrap goes through many stages of sorting, grading and processing—all linked together by dependable railroad transportation.

At the yard, heavy scrap is cut into specified sizes by huge "alligator shears." Enormous sections of steel are placed 'way back in the throat of these shears and sliced as easily as scissors cut paper.

Lighter scrap, such as automobile bodies, may be squeezed into one-ton "bales" about the size of orange crates. The sheared steel and "bales" are loaded by crane into railroad gondola cars and sent to mills.

At the mill, scrap and pig iron together with carbon, manganese, phosphorous and sulphur are melted in furnaces. The new steel is poured, cooled and rolled or cast into sheets, tubes and other shapes.

Last year, railroads hauled over 700,000 carloads of scrap—nearly thirty-five million tons of iron and steel—potential products for our homes and industries. Or the framework for a towering skyscraper.

Converting scrap and restoring it to a serviceable life is made possible by our railroads. It's just one way the railroads serve the nation every day—swiftly, efficiently, and economically.

ART FOR MISSOURI

1957-1958

Ten Works of Art brought to the Schools of Missouri in the form of accurate reproductions made directly from the original works.

(Top Row—left to right): *The Lady Hawker*, *Thursdays Academy*, *Paris*; *The Wounded Clown*, *Rouault*; *The Shrimp Girl*, *Hogarth*; *Houses at Honfleur*, *Corot*; *Oblique Progression*, *Periera*.

(Bottom Row—left to right): *St. Louis Airport*; *The Last Supper*, *Da Vinci*; "Little Hippo," *Jules*; *Sunflowers*, *Van Gogh*; *The Donkey*, *Sintenis*.

The pictures illustrated above have been selected by an Art Committee of Missouri for study in the elementary grades during the school year 1957-58. The prints average in size 7x9 inches and are reproduced in full color with the exception of the statuary and architectural subjects where color is not present in the original form. The prints are supplied with text especially written for this Missouri project. The price is \$3.00 per set for pictures and text. Order today to have the material on hand for the opening of the fall term.

Columbia, Mo.

The greatest single advancement in teacher welfare history in Missouri was made May 14, 1957 when Governor James T. Blair, Jr., signed the new retirement act, House Bill 34, improving the public school retirement system. Standing, L. to R. are: House Minority Floor Leader, A. Clifford

Jones, St. Louis County; House Majority Floor Leader, Warren E. Hearnes, Mississippi County; and Senator Albert M. Spradling, Jr., Cape Girardeau County, who handled the bill in the Legislature.

New Retirement Laws are Giant Steps Forward . . .

By INKS FRANKLIN

LARGER benefits, less stringent eligibility requirements and reciprocity provisions mark the milestones of advancement secured in teacher retirement systems in this state in recent months.

Better security in the later years of life appears to be within reach of most Missouri public school teachers.

The principal reason for the above statements lies in the recent improvements to the three teacher retirement systems.

Teachers in the Kansas City and St. Louis City retirement systems have added social security on top

of the benefits of their existing systems and also secured some improvements contained in *House Bill No. 326* and *Senate Bill No. 28* during the last session of the General Assembly. These changes lifted these two systems into a position where more adequate benefits are possible.

Members of the public school retirement system were successful in getting many major changes making it one of the best systems in the United States.

Reciprocity in Missouri

Teachers in the past have found that a change in position making necessary the transfer from one

retirement system to another in Missouri frequently meant the loss or reduction of future retirement benefits. To remedy this situation *Senate Bill No. 146* was passed. It provides that an employee having five or more years of membership service under one of the school retirement systems in Missouri who is employed in a position covered by another of the systems may leave his contributions with the system under which he was first employed and be eligible to receive benefits based on that employment when he retires under the second system. An employee having less than five years of membership service under one of the school

7
MI

retirement systems in this state who is employed in a position covered by another of the systems may purchase membership credit for service rendered under the first system.

Retired teachers in St. Louis under the provisions of *Senate Bill No. 134* will now have the privilege of serving as a substitute teacher for not to exceed 60 days during a school year. This is in keeping with an earlier law enacted that gave the same benefit to retired members of the public school retirement system.

Major Changes in State System

On May 14 Governor Blair signed *House Bill No. 34* making effective the new provisions of the public school retirement act.

Since the emergency clause was attached to the bill it became effective in time to apply to teachers retiring at the close of last school year. These teachers found their retirement benefits increased by at least 50% under the new act. An increase of this magnitude could contribute immeasurably to the future happiness and security of the beneficiaries.

Other major revisions improved the disability, survivor and retirement benefits and liberalized the eligibility requirements for a deferred annuity, survivor benefits, early retirement, establishing credit and investment of retirement system funds.

Service Retirement

Through a revision of the retirement benefit formula the maximum benefit payments per month were increased from the present \$222 to more than \$650. When the system first became operative in 1946 the maximum payment was set at \$75. In 1949 this was increased to \$125 and boosted to \$222 in 1953.

The big increases provided in service retirement benefits represent the biggest gains obtained in the new law.

The new formula for determining benefits is: (a) Seventy cents

plus one and nine-tenths per cent of final average salary for each year of membership service. (b) Six-tenths of the amount payable for a year of membership service for each year of prior service not exceeding thirty years.

A quick estimate of your retirement benefits can be made by referring to the table printed in *School and Community*, December, 1956, pages 24 and 25.

Disability Benefits

The time that you spend worrying about financial problems should now be devoted to something that will add to your pleasure.

Liberalization of disability provisions means one can now qualify for benefits with only eight years of creditable service and the benefits are improved 50% or more.

Monthly payment on disability may not be less than 45% of the annual salary rate on which contributions were made during the last full year of creditable service or a service allowance based on age 65 reduced by 10% whichever is greater. The disability allowance may not exceed the service retirement allowance to which the member would have been entitled at age 65 if he had continued to teach from the date of disability until age 65.

Survivor Benefits

Increased by more than 200% survivor benefits help to round out the program of security for teachers. Certain survivors of a member who dies before retirement, and of a member retired with disability benefits, may receive monthly benefits in lieu of accumulated contributions. The schedule of benefits is as follows: (a) A surviving widow who has in her care a dependent unmarried child or children under age 18 is entitled to receive \$150 per month plus \$75 for each dependent unmarried child under age 18, but not to exceed \$300. Payment to the surviving widow will continue until she is deceased or remarried or has

no dependent unmarried child under age 18 in her care. (b) A surviving female spouse, 60 years of age or upon attainment of age 60, or a surviving dependent male spouse, 65 years of age or upon attainment of age 65, if not remarried, is entitled to receive \$125 per month. A surviving dependent male spouse must prove that he was receiving one-half of his support from the deceased member. (c) In the event there is no spouse to receive survivor benefits, \$125 per month will be paid to each dependent unmarried child under 18 years of age, or the sum of \$300 will be divided equally among all qualified children if there are more than two. (d) If there is no surviving spouse or children to claim benefits and there is a surviving dependent parent over age 65, or upon attainment of age 65, who was receiving at least one-half of his support from the member at the time of the member's death, the surviving dependent parent may receive \$125 per month. If the other parent also is a dependent, the sum of \$125 per month shall be paid to each until death or remarriage subsequent to the member's death.

The cost would virtually be prohibitive for a teacher to provide the above survivor benefits by means of an insurance program. We do not know of any state that provides survivor benefits as liberally as these. Only two years of service is necessary to qualify for survivor benefits. It was previously five years.

Establish Your Creditable Service Now

Some teachers who have allowed the time to elapse within which they might establish creditable service for outstate teaching, military service, or reinstatement of credit because of withdrawal or unemployment will be glad to learn the way is now open under *House Bill No. 34* to get credit.

Teachers that have passed up the opportunity have until July 1, 1958 to get their credit approved.

New teachers entering the sys-

tem for the first time have a period of five years within which to take care of this important responsibility.

Legislature Sets Policy On O.A.S.I. Coverage

The Legislature served notice on members of the Public School Retirement System by way of an amendment to *House Bill 34* setting forth a policy of reduction in benefits in the event the membership should approve the adding of social security coverage to teacher retirement.

An amendment was adopted that would reduce the retirement benefits to a level established in 1953 provided members of the retirement system should vote to come under the Old Age and Survivor's Insurance program.

The membership of the Retirement System now serving as teachers on a full-time basis in a state or teachers college or the Missouri State Sanatorium, which institutions are already covered by Social Security, are affected by this provision.

The colleges had requested that their membership be permitted to vote independently of the public school teachers in regard to Social Security coverage. The Legislature granted them this right and each college voted to come under the provisions of Social Security adding it on top of their retirement benefits.

The adopted policy says to the other 98% of the membership now in the public schools that their retirement benefits will be reduced to the level existing before the passage of this new law if Social Security should ever be approved by the members of the System.

Provision is made in the amendment for automatic coverage under the new law for any college faculty that discontinues or terminates its Social Security coverage.

Deferred Annuity

Any time a member has 20 years or more of creditable service he may leave his contributions with

the system and be eligible for benefits at age 60. The old law called for 30 years of creditable service.

A member with 30 years or more of creditable service may retire at any age and request his retirement income to become effective immediately. This represents a reduction of 5 years compared with the old law.

Contributions

Increased benefits make it necessary to increase the contribution rate to 6% for the school year 1957-58. Contributions of members and employers will be based on full salary to a maximum of \$8400.

Final average salary is determined by adding the annual salary rates for the best ten consecutive years of service and dividing by 120, with the provision that an annual salary rate may not exceed \$8400.

Eligibility Requirements Reduced

Eligibility requirements for benefits have been liberalized for all members of the system including those members of state and teacher college faculties.

In order to qualify for survivor benefits it is only necessary to have two years of creditable service instead of five.

In the case of disability, benefits will be available after eight years of creditable service instead of ten.

The other eligibility requirements that apply to all members including college faculties are the 20 year deferred annuity and retirement with 30 years of creditable service.

It can be said without qualification that Missouri since the establishment of its retirement system has made the most rapid progress of any state in the Union.

SCHOOL FOR THE DEAF GIVES TO BUNKER HILL

The woodworking class of the Missouri School for the Deaf, Fulton, recently made and contributed 50 saw buck luggage racks to the Bunker Hill Ranch Resort.

They are neatly made of black walnut lumber with a webbing across the top for luggage to rest on. Materials were paid for by the Missouri School for the Deaf CTA. The Association wishes to express appreciation to the students and those in charge for this very thoughtful contribution.

The woodworking class, School for the Deaf, Fulton, made 50 luggage racks for Bunker Hill Ranch Resort.

National Education Association Votes To Expand Its Services, Increase Dues

Margaret Schowengerdt of Webster Groves was elected a member of the executive committee

MISSOURI delegates attending the centennial convention of the National Education Association in Philadelphia June 30 to July 5 helped elect one of their number to the executive committee and voted with the great majority of the 6,000 delegates to increase the dues of the Association to provide expanded services.

By a 4 to 1 vote the delegates passed Proposition 1, an amendment of the Bylaws, whereby the NEA dues were increased from \$5 to \$10 for the membership year 1957-58.

The "Forward Look" that can

be provided from increased funds from increased dues will center around new services and expanding present services.

The Division of Press and Radio and the Division of Federal and State Relations were each given an increase of \$500,000 to further activities in these areas.

It is anticipated that the Press and Radio Division will launch a series of radio, television and other news programs to keep the public informed on educational problems.

The NEA has just announced as its first step in its expanded service program the establishment of a

permanent TV-Radio office in New York, to maintain liaison with network officials and producers. Richard Krolik, recently associated with NBC's "Wide, Wide World" and "Today," and formerly in charge of television activities for *Life* Magazine, has been retained by NEA to represent the organization.

It is hoped this will exert a constructive influence upon commercial television and radio in their efforts to develop public understanding of education.

Additional function of the NEA New York TV-Radio office will be to cooperate with producers in presenting aspects of education on their programs. Research facilities of NEA's Washington Headquarters will be available for shows that

Margaret Schowengerdt, English teacher, Webster Groves High School, and past president of the Missouri State Teachers Association, was elected a member of the executive committee of the National Education Association at its Centennial Convention in Philadelphia, July 5.

Lyman Ginger, president of the National Education Association, exchanges greetings with Vice-President Nixon at the NEA's centennial convention in Philadelphia. Dr. Ginger is dean, school of education, University of Kentucky, Lexington, Ky.

Harold Lickey, music teacher, Marshall, and a past president of the Missouri State Teachers Association, was elected NEA director for Missouri.

will deal with schools, teachers, the needs of children and youth, and allied topics.

Future plans of the NEA Radio-TV office include the possibility of a weekly entertainment series, based on true stories of outstanding teachers; expanded services in TV-radio spot announcements and programming, and cooperation with local stations in the presentation of reports on education to their communities.

In the area of Federal and State Relations a stepped-up drive to secure federal legislation beneficial to teachers and school districts may be expected.

Nearly \$200,000 will be added to last year's budget for more educational services. About \$80,000 of this will be used to establish a Commission on Instruction to make the services of NEA departments and other units more fully available to the profession. Classroom teachers in rural areas will get more attention through a stepped-up program of service through the Rural Service Division as will those who work in the field of audio-visual instruction.

It will now be possible for the Committee on International Relations to have a full-time observer at the United Nations.

BETSY ROSS ROOM, Ben Franklin Hotel, was the meeting place for breakfast of Missouri delegates July 2. Seated at the head table L. to R.: Everett Keith, Exec. Sec., MSTA; Mrs. Frank B. Leitz, Pres., Mo. Congress, PTA; Commissioner Hubert Wheeler; Mary Field Schwarz, McCall's Teacher-of-the-Year; Louise Phillips, NEA State Director; Lynn Twitty, Pres., MSTA; Dr. Carl Byerly, Chm., Ex. Com., MSTA; Mrs. Byerly; Sue Hyatt, Pres., FTA; and Richard Bradley, Pres., Dept. Classroom Teachers.

SEDALIA TEACHERS ready to begin a 15-day trip to the NEA Centennial Convention in a bus made available by their school board. Members taking the trip which included stops at such points of interest as Indianapolis; Wheeling, West Virginia; Washington; Williamsport, Pa.; Niagara Falls; Fort Niagara; and Springfield, Illinois; were L. to R.: Mildred Heynen, Nellie White, Thelma Cook, Gladys Leiter, Pearl McQueen, Jean Iuchs, Jessie White, Marian Knight, Anna Elliott, Catherine Riner, Ruth Burford, Catherine Garman, Edna Witcher, Marian Smith, Anna Belle Lee, Lena Balke, Opal Boeschen, Gwendolyn Tuck, Frances Garman, Mabel Howe, Minnie Van Horn, Georgia Zulauf, Virginia Staley, J. O. Miller, Edna Miller, Tom Yurasich, Elizabeth Yurasich, P. A. Sillers, and Lloyd Yarnell.

Provision has been made to add personnel to formulate and improve NEA convention programs.

Field operations, including membership promotion, will get an expanded budget of \$250,000 to help carry the work of the NEA to locals and give impetus to membership drives in larger cities.

Work with magazine publishers, the National Congress of Parents and Teachers, and the National School Boards Association will be increased.

An appropriation of \$150,000 was recommended for the Tax Education Committee for major studies on tax matters.

Funds were approved for the Department of Classroom Teachers to permit more field work, additional printing and strengthening of programs.

More attention will be directed to helping students attending teacher education institutions.

Missouri Breakfast

About 180 Missourians, the largest number to ever attend such an occasion, met for breakfast on July 2 in the Betsy Ross Room, Ben Franklin Hotel.

At the State Delegation meeting the following officers were elected to serve during the centennial convention: Chairman, Lynn Twitty, Sikeston; Vice-Chairman, Harold Lickey, Marshall; Secretary, Adah Peckenpau, Clinton; Resolutions Committee, Margaret Schowengerdt, Webster Groves; Alternate, Resolutions Committee, Grace Gardner, Springfield; Credentials Committee, Richard Bradley, Raytown; and Alternate, Credentials Committee, Buena Stolberg, Webster Groves.

Louise Phillips, NEA State Director, discussed the increase in dues proposal. The Missouri delegation went on record as endorsing the increase to \$10.

This was the year to elect an NEA director for Missouri for a three-year term. Miss Phillips was again nominated for the office but withdrew her name and Mr. Harold Lickey's name was placed in

nomination and he was subsequently elected.

During the nine years Miss Phillips has served as NEA director Missouri has consistently made progress in NEA membership. This year Missouri reached its centennial action program goal with 16,977 members enrolled. This represents 60% of the teachers in this state.

Hickey Honored

The American Association of School Administrators held a breakfast July 3 at the Bellvue-Stratford Hotel in honor of its president, Philip J. Hickey, Superintendent of Instruction, St. Louis, and formerly president of the Missouri State Teachers Association.

Missourians speaking at the breakfast were MSTA President Lynn Twitty and Mr. Everett Keith, executive secretary, MSTA. The breakfast was attended by the largest number ever recorded for such an occasion.

Mary Field Schwarz, Bristol School, Kansas City, *McCall's* Teacher of the Year, was introduced.

Margaret Schowengerdt Wins Executive Committee Post

Margaret C. Schowengerdt, formerly president of the Missouri State Teachers Association, was elected to one of the two vacancies on the executive committee of the National Education Association for a three-year term.

Miss Schowengerdt's name was placed in nomination before the Representative Assembly by Howard Latta, Principal, Webster Groves High School.

With six candidates actively seeking the two vacancies on the executive committee competition was strong. Election returns revealed that Miss Schowengerdt led the field. Miss Elizabeth Yank of California, immediate past president of the Department of Classroom Teachers of the NEA, won the other vacancy on the committee.

As part of the local NEA Centennial Anniversary celebration, Mary Jane Schroeder, kindergarten teacher at the Meramec School, Clayton, was crowned Queen of the NEA Centennial Dinner by Sam F. Hall, chairman of the event.

A joint reception for the two winning candidates was held following Friday evening's General Session.

Before the election Missouri's headquarters room in the Ben Franklin Hotel was a scene of activity as delegates worked to promote the candidacy of Miss Schowengerdt.

Every visitor to the headquarters room saw an enlarged picture of Miss Schowengerdt and a placard setting forth her many qualifications. Printed folders and convention notebooks setting forth Miss Schowengerdt's professional qualifications were presented to delegates from many distribution points.

Perhaps the highest point of activity in the campaign came on Thursday evening when Missouri held open house honoring its candidate. It took united efforts of the entire Missouri delegation to play host to the great number of visitors that came to the reception.

Dr. Lyman Ginger, dean, College of Education, University of Kentucky, was elected president of the NEA. Ruth Stout of Kansas was elected first vice-president.

Clinton and Sedalia each sent two busloads of delegates to help swell the record attendance for Missourians at the Philadelphia convention.

Boost Your Audio-Visual Watts THROUGH THE MISSOURI STATE AUDIO VISUAL SERVICE CLUB

By Lee E. Campion

IF an audio-visual program has been instituted in your school system, you are confronted with several problems: first, how to use the audio-visual equipment as efficiently and successfully as possible; second, how to minimize the difficulties which may be encountered in using complicated equipment; third, how the teacher may be partially relieved of the mechanics of setting up, adjusting and running the equipment in order that he or she may devote more time to explaining and supplementing the audio-visual material; and finally, how to use audio-visual equipment not only as a teaching aid, but also as a focal point for developing responsibility and cooperation within the student group.

These problems are not confined to any particular school system. They are inherent in the use of audio-visual equipment. The Department of Audio-Visual Education, a department of the Missouri State Teachers Association, appointed a committee to analyze these problems, and they have

Missouri State Audio Visual Service Club Charter

Know all Men by these Presents, that

Whereas, character, scholarship, leadership, and service are cardinal qualities worthy of encouragement in all schools, therefore the Department of Audio Visual Education of the Missouri State Teachers Association gives, grants, and delegates through this Charter the right, privilege, and power to establish, conduct, and administer the local chapter Audio Visual Service Club of the Department of Audio Visual Education, Missouri State Teachers Association.

This Charter is given and granted this
day of _____ Nineteen
Hundred and _____ for one year
by the Department of Audio Visual Education
of the Missouri State Teachers Association

Missourian Voted Teacher of the Year

MARY FIELD SCHWARZ

S E

MEMBERS of the teaching profession in this state were happy and honored when they learned last June that one of their number, Mrs. Mary Field Schwarz, Bristol School, Kansas City, had been selected as a co-winner of *McCall's* Teacher-of-the-Year contest.

McCall's featured Mrs. Schwarz and the other co-winner, Guy Bizzell, Austin, Texas, in the June issue.

5 7

On May 29 Mrs. Schwarz visited President Eisenhower and Vice-President Nixon in Washington, D. C. She appeared on national television and radio programs and attended the centennial convention of the NEA in Philadelphia.

The Missouri State Teachers As-

sociation will honor Mrs. Schwarz in November at the State Convention.

Mary Schwarz has lived an interesting and useful life and we want you to read about it in her own words printed below:

Now in my eighth year of teaching, I teach third grade at Bristol School, part of the Kansas City, Missouri school system. In August, 1956, I completed work for my master's degree in Supervision and Curriculum Improvement at Teachers College, Columbia University. I received my A.B. degree from a college of liberal arts, Central College, Fayette, Missouri.

Born May 28, 1918, I grew up literally on the Central College campus where my father was super-

intendent of building and grounds and my mother taught English in the college. Many cultural advantages were mine in this little college town, where I knew the faculty members, attended concerts, plays, and art exhibits even as a child. I was fortunate to have well-trained and understanding elementary teachers.

In high school my main interests were English, Art, and Speech, and I won the art prize during my senior year (1935). (It was then my first work, a transportation mural, which appeared in *School and Community*).

At Central College I majored in Art and English. In summers I studied art at Missouri University and the Chicago Art Institute. I

took private lessons in voice and speech, sang in the A Capella Choir and was reader with the Choir on spring tours of the state. I was a member of the Art Club and the Dramatics Club, had roles in several plays, designed costumes and stage sets. I was a member of Tau Chapter of Phi Beta, honorary music and drama organization, and Sigma Epsilon Pi, Central College honor society. During my senior year I tied for the Edna Smith Glenn art prize, and in 1939, was graduated with honors in scholarship.

My first job was teaching art and junior high English in the Lexington, Missouri high school. I was married in July, 1940 to Lieutenant Howard C. Schwarz, who was then on the staff of Wentworth Military Academy. In November, when my husband was called to active duty at Fort Leavenworth, Kansas, I went with him. We were transferred to Fort Benning, Georgia, just before our son was born April 14, 1942.

Most of the war years were spent in Macon, Georgia, except for short periods back in Fort Leavenworth, and near Fort Huachuca on the Mexican border at Warren, Arizona. My husband now a Lieutenant Colonel in the Reserves, was overseas one year, critically wounded and sent home. After his separation from the army, we made Independence, Missouri our home.

For a time I directed a church youth choir, did Red Cross volunteer work, and was active in the American Association of University Women. Teachers were badly needed in 1949, and with my son in second grade, I began substituting. From 1950 to 1954 I taught sixth grade at Rock Creek Elementary School in Independence, Missouri.

My training had been for high school teaching, but I liked the elementary field, too, so I set about to remove about twenty hours of deficiencies. In 1952 I started work on my master's degree. Since 1954

I have taught in the Kansas City system.

Most of my life has been spent in Missouri, but I have lived for short periods in the north, northeast, southeast and southwest of our country, have toured most of the western states, and visited briefly in Mexico and Canada.

My hobbies are varied. I enjoy studying and like to take self-improvement courses. Since college (besides my master's work) I have taken courses in American history, state and national government, physical education, German, watercoloring, dancing, and public

speaking. I like interior decorating, and enjoy practicing on my own house. I have sung with the chorus of the Kansas City Philharmonic Orchestra. I sing in the choir of the First Christian Church, and sometimes do alto solos. At present I am studying French.

I belong to the National Education Association, the Missouri State Teachers Association, the Kansas City Teachers' Club, the Teachers' Cooperative Council, and the Association of Childhood Education International. I am a charter member and officer in Phi Chapter of Delta Kappa Gamma, honorary society for women educators.

Audio Visual Club

(Continued from Page 15)

clubs in most school districts from Kansas City to St. Louis, but now, with local groups joining the statewide club and new groups being formed, a more effective job can be done.

The purpose of the Missouri State Audio-Visual Service Club, as stated in its informative handbook is, "... to further the effectiveness of instruction in the schools of Missouri and to provide opportunity for student participation in a meaningful experience through use of audio-visual equipment and material."

Aims of the Missouri State Audio-Visual Service Club:

1. To provide the school with capable and reliable operators for all types of audio-visual equipment.
2. To provide an efficient system for scheduling and delivery of audio-visual equipment to place of use.
3. To provide for the care and proper handling of audio-visual equipment which will contribute to its long life and efficient operation.
4. To provide an opportunity for reliable students to exercise mechanical skills and interests.

5. To provide students with the opportunity and satisfaction of performing an important service for their school and community.

6. To provide students with skills, interests, and abilities of vocational and avocational nature.

The senior membership of the Missouri State Audio-Visual Service Club is open to boys and girls of the 9th through 12th grades in schools of Missouri. The junior membership is open to boys and girls below the 9th grade level.

Local clubs applying for membership must submit for approval by the Department of Audio-Visual Education of the Missouri State Teachers Association a constitution and an application blank. Payment of two dollars entitles the local club to active membership.

A club charter suitable for framing will be issued for a period of one year with each club membership. A state handbook is also issued.

A handsome official State Audio-Visual Service Club pin is available to all senior members at a nominal cost. Individual cards will be issued with the charter for each member.

All sponsors of local clubs as well as those interested in starting new clubs may make use of the application printed on page 15.

Laws Pertaining to Education Enacted by the Sixty-Ninth Missouri General Assembly

THE Sixty-Ninth General Assembly was a significant one for school legislation in Missouri. The two major legislative objectives of the Association were achieved in the full financing of the school foundation program and the improvement of provisions for retirement.

The recommendation in the Executive Budget of the funds required to meet in full the State's obligation under the school foundation program law and the manner in which they were approved by the General Assembly were significant and historic milestones in the financing of public education in Missouri. The major improvements made in the Public School Retirement System of Missouri certainly gives Missouri one of the best state retirement systems in the country. Other retirement legislation improves the Kansas City and St. Louis systems. We now have outstanding retirement provisions available for all the state.

Legislation of importance was enacted following the recommendations of committees of the General Assembly studying the areas of special education and juvenile delinquency.

New laws summarized below are now effective.

School Finance

House Bill No. 186 appropriates

funds for the full financing of the school foundation program for the 1957-58 fiscal year and contains appropriations for the State Department of Education.

Senate Bill No. 308 transfers one-twelfth part monthly of \$65,627,733 from the general revenue fund to the state school moneys fund. The revenue from the state cigarette tax is placed in the state school moneys fund by law.

House Bill No. 257 contains the appropriations for the institutions of higher education in the state.

House Bill No. 51 provides that a board of education may invest funds not needed for at least six months in either open time deposits for ninety days or certificates of deposit or bonds of the State of Missouri, of the United States, or of any wholly owned corporation of the United States provided the bonds are redeemable at maturity at par, or in other short term obligations of the United States.

House Bill No. 126 provides that boards of education of six-director school districts may provide educational facilities and services for pupils residing on federal lands and may operate schools on federal lands adjoining the district if plant facilities are provided by the federal government. A district providing education for pupils residing on federal lands shall receive

the same amount of school foundation program funds per pupil in average daily attendance for pupils residing on federal lands as the district receives for its resident pupils.

Provision was made by the General Assembly to finance an expanded budget staff as requested by the Governor to make an analysis of state expenditures, revenues and state services. It is anticipated that future budget and taxation recommendations will be based on these budget studies.

Retirement

See page 9 for a detailed account of retirement legislation.

Special Education

House Bill No. 30 reduces from 10 to 6 the number of handicapped children for whom classes shall be provided and restores the provision for the education of the home-bound child.

House Bill No. 31 provides that the county superintendent of schools make a census of children who appear to be physically or mentally handicapped and provides additional compensation of from \$400 to \$800 for different class counties.

House Bill No. 598 repeals Section 163.340, RS Mo. 1949 which was in conflict with *House Bill No. 30* as to minimum number.

Senate Bill No. 13 creates a "coordinating commission for the handicapped" consisting of one representative each of the department of public health and welfare, the state department of education

and the University of Missouri; eight legislative members; and four members appointed by the Governor. The commission shall make a continuing study of the care, training and educational programs for handicapped persons and make recommendations for legislation.

Senate Bill No. 14 provides that the state board of education shall, within three years, establish county or district training centers for the instruction of trainable mentally retarded children. The district of residence of each child attending a training center shall pay toward the cost of training an amount equal to the per pupil cost in the school or schools of the district exclusive of state funds.

Senate Bill No. 125 provides that the qualified voters in St. Louis county may create a special school district for the education and training of handicapped children for the county at large.

Juvenile Delinquency

Senate Bill No. 15 rewrites the juvenile code of the State. The bill was designed to modernize and provide more uniform services for juveniles in difficulty.

Senate Bill No. 16 provides compulsory school attendance for children between the ages of seven and sixteen years; except that (1) a child may be excused from attending school either full or part time by the superintendent of schools or another person authorized to act for him for mental or physical incapacities and (2) a child between fourteen and sixteen years of age may be excused from attendance at school for the full time required, or any part thereof, by the superintendent of schools or other person authorized to act for him or by a court of competent jurisdiction when legal employment has been obtained by the child and found to be desirable, and after the parents or guardian of the child have been advised of the pending action.

The school attendance law is changed in two important respects by *Senate Bill No. 16*. First, it re-

moves the exemption from attending school upon completion of the common school course. Second, it gives the superintendent of schools or someone authorized by him discretion in issuing work permit to a child between fourteen and sixteen years of age.

Senate Substitute for Senate Bill No. 17 repeals and re-enacts the Sections relating to the employment of children. It defines "gainful employment," describes the hours during which children may be employed, lists prohibited employment and provides for the issuance of work permits for children between fourteen and sixteen years of age. Work permits shall be issued at the discretion of the superintendent of public schools of the district in which the child lives, or if there is no such superintendent, by the county superintendent of the county in which the child resides. Blank work certificates shall be furnished by the state commissioner of education. The director of the division of industrial inspection of the department of labor and industrial relations is charged with the enforcement of the act.

Senate Bill No. 18 provides penalties for minors for misrepresentation of age to obtain non-intoxicating beer.

Senate Bill No. 19 relates to the publishing and dissemination of obscene newspapers and magazines and provides penalties therefor.

Boards of Education

Senate Bill No. 30 provides that the election of the county board of education in a first class county shall be held at an hour determined by the county superintendent of schools.

Senate Bill No. 133 provides that the board of education in St. Louis may adopt the Federal Census Bureau decennial census tabulation for enumeration purposes.

Senate Bill No. 157 authorizes school boards to join the Missouri School Boards' Association and pay membership dues and the neces-

sary expenses of members attending meetings in Missouri called by the Association. The Association is prohibited from using its funds to influence legislation.

Senate Bill No. 164 relates to the condemnation of land by the board of education in St. Louis and provides that a fee simple title for land sought by condemnation shall vest in the board.

Senate Bill No. 165 relates to condemnation proceedings and provides that publication of time of hearing when the owner of property is unknown or non-resident shall be once each week for three consecutive weeks. The section before re-enactment provided for publication for three weeks consecutively.

Senate Bill No. 166 relates to the purchase of supplies by the board of education in St. Louis providing that purchases may be made throughout the year and increasing from \$500 to \$1,000 the amount of a purchase that may be made without letting a contract.

Senate Bill No. 167 relates to the alteration and repair of buildings by the board of education in St. Louis.

House Bill No. 68 provides that a board of education may authorize the use of facsimile signatures by the treasurer.

House Bill No. 163 removes any designation with respect to race in school enumeration and provides that any board of education may cause enumeration to be made only once in five years by adopting the previous enumeration by resolution.

Other Bills

House Committee Substitute for House Bill No. 10 establishes a speed limit for motor vehicles upon the public highways in Missouri.

House Bill No. 69 changes the age limit under which ADC grants may be made for a child who is in school, from under the age of sixteen to under the age of eighteen.

House Bill No. 171 changes the upper population limit in special (See School Legislation Page 27)

W E L C O M I N G

The New Teacher

By Roy A. Alcorn, Ellsinore

MARK TWAIN once told of an amusing incident that occurred on one of his trips by stagecoach into the Far West. On returning to Kansas City across the dusty plains of Kansas he asked an inn-keeper where they put up for the night just how far it was to Kansas City. The answer he got was 300 miles. After another bone-shaking day of traveling he made the same inquiry of a native. The answer he received was 300 miles. The response to his question the third night was still 300 miles. By this time a thoroughly exasperated Mark Twain sourly remarked, "Thank God, we're holding our own."

If the teaching profession is to "hold its own" against the rising tide of school enrollment it is imperative that more qualified teachers be recruited into the profession. Therefore securing qualified personnel has become one of the major concerns of school administrators and boards of education throughout Missouri.

Yet successful teacher recruitment is not the whole answer. The question then arises. "How shall we keep these teachers in our system?" "How can we help the new teacher to become a fullfledged member of the school and community?" Answers to these perplexing questions may contribute toward easing the present teacher shortage.

School Survey

This writer made inquiries of several school systems in Missouri regarding their teacher-orientation

programs, and the results of that survey were gratifying. The school systems consulted were Fredericktown, Jefferson City, Mexico, Poplar Bluff, Sikeston, and St. Louis.

In general each school system in the survey provided for an adequate teacher orientation program which included these elements; (1) furnishing new teachers with information about housing, meals, churches, shopping, etc., (2) providing a school handbook which included such information as salary schedules, work hours, regulations, etc., (3) providing an experienced teacher to assist the new teacher in getting settled, (4) conducting a pre-school workshop to acquaint all school personnel with school matters, and (5) appointing new teachers to responsible committee assignments as soon as possible.

It was interesting to note in this study that in some cases the community was brought into the teacher orientation program in a very active way. One school system invited the PTA, churches, and the service clubs to participate in helping the new teacher to feel accepted in the community. This practice must be producing dividends, because teachers enjoy a long tenure in that system.

What about our small school systems? Should they be concerned with a formal program of teacher orientation? Some educators have contended that in small schools of 10 to 15 faculty members no formal program of orientation is needed. But experience seems to indicate that schools having no well thought out program of teacher orientation

tend to neglect many needful phases of this vital program.

Also, it has been the observation of this writer that a new teacher can get just as lonesome and dispirited in a small community as she can in a large metropolis. No teacher can give her best to a school and community if she is not made to feel she is a wanted and needed member.

Suggested Practices

Below are listed some suggested practices in teacher-orientation:

1. Provide assistance to the new teacher in securing housing, and information regarding shopping facilities, churches, medical facilities, and recreational facilities.
2. Compile and distribute a school handbook to all teachers.
3. Notify beginning teachers of specific assignments as soon as possible. Curriculum materials should be made available before the opening of school.
4. If possible, invite new teachers to visit school *this* year and get acquainted with the larger aspects of the system.
5. Provide for a pre-school informal "get acquainted" meeting of all teachers in the system, possibly sponsored by the PTA, church, or service organizations.
6. Delegate an experienced teacher to act as sponsor for the beginning teacher.
7. Conduct a pre-school workshop. This acquaints the new teacher with class schedules, school regulations, etc.
8. Provide for a program of
(See New Teacher Page 44)

In order to provide transportation to the National Education Association Centennial Convention for all NEA life members of the Clinton CTA the School Board chartered this bus. Three board members accompanied the teachers to historic Philadelphia.

Clinton CTA

ADOPTS PROGRESSIVE PROGRAM . . .

Teachers at Clinton are implementing a well-rounded program of professional activity as an avenue to professional growth and better service to students.

The community teachers association has sponsored many projects and worked with the school board in matters related to improvement of the schools.

In the area of in-service training the CTA has helped with visitation day and pre-school workshop.

A single salary schedule with a beginning salary of \$3600 has been initiated. The Clinton board of education will also provide up to \$40 expenses for a teacher to attend the state convention of the

(See Clinton CTA Page 23)

Clinton CTA Birthday Party to celebrate the National Education Association Centennial.

A large and active Future Teachers Association is the result of Clinton CTA professional activity. The CTA sponsors a series of FTA scholarships.

Thirty-six of Clinton's 57 teachers are NEA life members.

Write original sentences

- 1-indirect quot.
- 1-direct quot - at end of sentence
- 1-direct quot - begin

- 1-declared quot.
- 1-change indirect to direct
- 2-change direct quotation to indirect
- 1-change declared to indirect

When a sentence is quoted within another sentence, use indirect quotation.

Example: "The report stated that the project was successful."

*Dr. Weir was Coordinator of School Programs and Station Relations for this experiment for the St. Louis Public Schools.

a member of the Television Commission, and to him and his able assistant superintendents, Dr. William Kottmeyer and Mr. Robert Inbody, must go a large amount of credit for leadership, courage and competence for undertaking a bold experiment in the use of educational television.

The Experiment

The experiment was designed to test the use of television in the teaching of large classes of children and to test a variation of the professional duties of the classroom teacher in the manner described.

In addition to second grade spelling, first semester ninth grade English composition and first semester general science were also taught by TV. The TV lessons for these subjects lasted for thirty minutes, and the "teacher-assistant" was a liberal arts graduate without teaching experience who worked full time to assist the classroom supervisory teacher of the large classes of 150 students. Miss Marie Ernst, an English Consultant for the secondary schools, was the TV teacher of English Composition, and Dr. John Whitney, the Dean of Instruction at Harris Teachers College, was the TV teacher of General Science.

These TV teachers were responsible for the teaching of the subjects, and they spent their time in the preparation and presentation of the TV lessons at Station KETC. They were assisted in their work by a producer, and other members of the TV station staff.

Before the TV teaching started, however, appropriate arrangements were made for evaluating the results of the experiment. Control classes were designated which contained an equal number of students (of the same general background and IQ level) who were studying the same subjects with a teacher in the regular way in normal size classes. These control classes, as well as the experimental TV classes, were carefully tested before the experiment began and again when it was over.

Testing Results

The results of the testing were interesting. It was found that *on the basis of the testing instruments employed* the students in the large TV classes in English and in science showed a degree of achievement at least equal to that of the control classes which were taught in the conventional manner.

It must be recognized, however, that although the achievement of the students in the large TV classes was at least equal to that of the students in the control groups, this answer must be regarded as a partial answer. We know there are other factors than objective achievement which are involved in the results of good teaching and these other factors, being intangible, are not measured by objective achievement tests.

The support of this partial answer contention about intangible factors can be found most readily in the opinions of teachers and principals and the students themselves. The teachers thought the needs of individual differences in the abilities of the students were not adequately met, and more than half of the students thought they would have learned more in a regular classroom.

The results of the testing of the spelling groups were interesting also and for the same reason. On the basis of the test instruments used there was no significant difference between the mean *gains* of the individuals in the experimental and control groups on the first part of the test procedure.

On the second part of the test procedure, which measured achievement beyond grade two, however, the mean gain of individuals in the control group was significantly higher than the mean gain of those in the experiment TV group.

A possible explanation for this difference between the groups in the second part of the test may lie in the fact that TV teaching to large groups must be geared to one level of instruction, while the classroom teacher can cater to the

needs of the superior child and also help the slower child.

Dr. Earl Heminghaus stated in evaluating the experiment:

"Comparison of results in the three subject matter areas indicated that presently it is not possible to make generalizations about the use of television for all instructional purposes. The three courses represented wide divergencies in content, method of teaching, and age of pupils. The different distribution of responses and the problems of student acceptance and physical conditions of receiving classrooms cited . . . all point to the conclusion that much experimentation in the use of television for specific teaching jobs remains to be done."

Clinton CTA

(Continued from Page 21)

Missouri State Teachers Association. Forty Clinton teachers were provided with transportation costs in order that they might attend the National Education Association Centennial meeting in Philadelphia.

As an incentive to attract teachers the Clinton board will pay moving expenses for new personnel.

The community teachers association has been responsible for the formulation of a group insurance plan.

Among other activities sponsored by the CTA during recent years were a Little White House Conference with the PTA and other groups participating and a newspaper spread hailing the local NEA Anniversary Celebration last April 4. This advertisement was sponsored by a number of local business firms in Clinton. It gave the celebration program, showed pictures of Clinton schools, listed the NEA objectives, and the names of local lifetime members of the NEA and the businesses sponsoring.

The Clinton teachers each selected a name of a business firm and wrote a personal thank you note for its cooperation.

Legislation

THE recent session of the General Assembly was a historic one for public education.

Two major objectives of the Association were realized. They were the full financing of the foundation program, with the placing of schools on a budgetary basis, and significantly improved provisions for retirement.

Missouri now has the best state retirement system in the country. Considering the fact that Missouri was the 47th state to make a start (1945) the progress is significant.

Other legislation of value in such fields as special education and juvenile delinquency was enacted.

A special session will be called to make appropriation for the fiscal year beginning July 1, 1958, and to consider such other matters as may be designated by the Governor.

One certain major objective will be the appropriation of the amount needed to finance in full the foundation program for another year.

As costs continue to climb and the number of children continues to grow, we must evaluate the adequacy of the foundation program and recognize more fully the tragic need for school buildings in many communities.

Missouri has an enviable record of all teachers working together, regardless of salary or position. They know full well that in unity there is strength. The unbelievable and continuous record of significant achievements during recent years are a living testimony to that which is possible with a unified, interested, informed and active professional group.

Our greatest continuing professional need in this country, on and between all levels, is ever better professional unity.

In Review

PLANs are under way for the State Meeting in St. Louis, November 6-8. Make your reservation immediately, if you have not already, using the blank on page 33.

As this is written, the MSTA-NEA Leadership Conference, August 5-9, at the Bunker Hill Ranch shows promise of being one of the most successful. Topics to be considered include: Our Community Associations at Work, Public Relations, Teacher Welfare, and MSTA-NEA Services.

Suggested programs for community associations for this school year implementing these leadership objectives have been sent to community association officers and are available.

The best and most complete collection of elementary library books to be found anywhere is made available by the Association. A list of new copyrights for high school is likewise available.

Every teacher having an individual sickness and accident policy should check it carefully. The group plan is sponsored by the Association merely as a service to the membership. The same is true for the automobile, life, and school children programs.

Bunker Hill Ranch continues to be a delightful place for conferences and individual recreation.

Teachers' salaries have increased noticeably again this year. A continued increase will do more than anything else to solve the serious shortage of qualified teachers. If any one doubts it, let him take a look at the facts from those who quit.

Early payment of dues is advantageous in many ways. To some it means the receiving of all issues of *School and Community*.

Senath reported 100% membership in July, being the first high school district to report for the past three years. Braggadocio likewise reported in July and was second.

Invocation, Brother J. Edmund, Principal, Helias High School, Jefferson City

Music, Musical numbers by the Department of Music, University of Missouri

Developments Affecting Secondary Education in America, Dr. Lindley J. Stiles, Dean, School of Education, University of Wisconsin.

FIFTH GENERAL SESSION

Tuesday, October 1, 1957, 9:00 a.m.

Robert F. Lemen, Principal, Wydown School, Clayton, Presiding

Secondary Schools for an Atomic Age, Dr. Lindley J. Stiles

10:00 a.m., Business Meeting

Presiding, Homer R. Kesterson, President, Missouri Association of Secondary School Principals

10:45 a.m., Business Meeting of the North Central Association of Colleges and Secondary Schools

Presiding, Dr. H. E. Mueller, Chairman, N.C.A. State Committee.

FELLOWSHIPS AWARDED TO MISSOURIANS

The Ford Foundation has announced the awarding of fellowships in economics and business administration to five graduate students in Missouri.

The awards fall into three categories: predoctoral fellowships, dissertation fellowships and faculty research fellowships.

Following is a list of the names of Missourians receiving fellowships for 1957-58: Jack L. Cross, Afton; William D. Guth, St. Louis; J. Carter Murphy, St. Louis; Jerry B. Poe, Mountain Grove; and Robert L. Sligh-ton, Richmond Heights.

BELL HONORED AT BOARD-FACULTY DINNER

Clifton R. Bell, superintendent of the Farmington Public Schools, was recently honored at the annual school board faculty dinner. The event was planned to highlight Mr. Bell receiving his doctorate from Washington University, St. Louis.

Following the program which patterned "This is Your Life" program, gifts were presented to Dr. and Mrs. Bell and Miss Judith Bell. The faculty presented Judith with a necklace, Mrs. Bell with a silver bracelet, and Dr. Bell with a piece of luggage and a handsome set of monogrammed cuff links.

School Legislation

(Continued from Page 19)

laws for the Kansas City school district from 500,000 to 700,000 inhabitants. This prevents a disruption of existing school districts adjoining Kansas City.

House Committee Substitute for House Bill No. 294 provides that prevailing wages shall be paid on public works.

House Bill No. 300 provides that the county court in any third class county adjoining a first class county may, upon petition of at least 15 per cent of voters voting in last general election, require building permits for the erection of build-

ings outside of incorporated cities.

House Bill No. 406 provides that a pupil may be assigned by the county superintendent of schools to a district not adjoining the district of the pupil's residence.

House Bill No. 568 authorizes the boards of regents of the state and teachers colleges to secure real estate and other property by condemnation.

Senate Bill No. 201 designates the state board of education as the Missouri Agency for Surplus Property.

Senate Bill No. 214 creates a fund in the state treasury for the deposit of federal funds that may be received for library service.

Senate Bill No. 305 requires a consolidation of polling places for all elections held on the same day where feasible.

Resolutions

House Concurrent Resolution No. 15 provides that the committees on appropriations of the House and Senate may serve during the interim between sessions and make such studies of appropriations as are needed.

House Resolution No. 133 provides that the Committee on Legislative Research make a survey of the laws prescribing the duties and fixing the salaries of county officers.

ulter, Director
Invocation, Reverend Roy F. Fields, Central Christ-
ian Church
"Washington Merry-Go-Round," Drew Pearson, Com-
mentator and News Analyst, Washington, D. C.

LEXINGTON HONORS SUPERINTENDENT BELL

Lexington's new elementary school has been named in honor of Leslie Bell, city superintendent of schools for the past 38 years.

In announcing the school's name the board of education said, "We feel we are expressing the appreciation of the community for the many years of hard work and sincere effort which our superintendent has devoted to

the all-important job of educating our children."

Mr. Bell became superintendent of Lexington schools in 1919, when he was probably the youngest superin-
tendent of a system of its size in the state. He was previously principal of the Lexington highschool and the Cleveland, Oklahoma highschool.

He graduated from the Monroe City highschool and received B.A., B.S. in Ed. and M.A. degrees from the University of Missouri. He is a past

president of the Central Missouri Teachers Association and a former member of the executive committee of the Missouri State Teachers Association.

Under his leadership, Lexington was one of the first towns in its area to establish a junior highschool and offer courses in vocational home economics, vocational agriculture, and diversified occupations. In 1945 the highschool was selected by the State Department of Education to participate in a study of good teaching practices.

Items of Interest

Mrs. Myrrl Moore is now teaching at Hardin. She was at Clarksdale last year.

Mrs. Dacy Hawthorne is now teaching English and social studies in the Doniphan highschool.

Warren M. Black, superintendent at Hillsboro for the past four years, is now teaching mathematics in the DeSoto highschool.

Lester M. Kraft, formerly superintendent of the Perry public schools, resigned his position to accept a teaching position in the Afton senior highschool.

Newman M. Walker, former director of guidance in the Rolla System and last year a graduate student at George Peabody College for Teachers, Nashville, Tenn., has accepted a position as principal of the highschool in Mt. Grove.

Roland A. Bell, superintendent of the Wellsville System for the past four years has resigned to become assistant superintendent of schools at Brentwood. Mr. Bell is succeeded at Wellsville by P. J. Newell, Jr., formerly superintendent at Kahoka.

Egbert W. Nowlin, principal of the Bristol School, Webster Groves, for the past 39 years, was honored upon his retirement by the local PTA.

Calla Varner, a retired St. Joseph teacher, was recently honored by having one of her former pupils, Irving Ben Cooper, Chief Justice, Court of Special Sessions, New York City, write an article about her which was published in the June, 1957 issue of *Reader's Digest*.

H. W. Schooling, a member of the faculty of the University of Chicago

and formerly superintendent of the North Kansas City public schools, is returning to Missouri to head the Webster Groves public school system.

Mrs. Harold Kottman, a teacher of nine years experience, the last having been at Glasgow, has joined the Centralia faculty to teach science and home economics.

Wesley E. Kettelkamp, assistant principal of the University City highschool, will be acting principal during this school year. Mr. Mark Boyer will serve as assistant principal assuming the principalship next fall.

Mary Lou Dove of Neosho has been appointed by the Centralia board of education as art instructor.

Frank Leet, formerly principal at the Maysville highschool, has accepted the principalship at Cameron.

Ward E. Barnes, superintendent of the Normandy public schools, has been appointed by Philip J. Hickey, president of the American Association of School Administrators, to serve this organization on the American Council on Education.

Earl Whiteaker, superintendent, Versailles, reports R-2 district of Morgan County has completed a highschool building on a 36-acre tract. Industrial arts has been added to the highschool curriculum. Twelve rural classrooms operated last year as separate units are now being transported to central buildings in Versailles.

C. H. Jones, Jr., superintendent of Nevada, has announced the start of construction of a new \$1,200,000 junior-senior highschool. The new unit will be on a 30-acre site that will feature a school park, outdoor theatre, and natural science area.

Charles C. Benson has been appointed Missouri representative for the Denoyer-Geppert Company. He has been active in the Aeronautical Chart and Information Center in St. Louis where he makes his home.

Roy F. Little, director of curriculum, research and evaluation for the Springfield Public Schools, has been promoted to assistant superintendent of schools in charge of curriculum, instruction and certificated personnel.

Arthur Rowden of Conway is the new coach in the Crocker highschool.

George DeWoody, superintendent of the Ellington public schools, taught a five weeks summer session at the Hardin-Simmons University at Abilene, Texas.

Mrs. Mary McCluskey, a teacher in the Williamson-Kennedy elementary school in Poplar Bluff last year, is now teaching in the Berkeley System.

Mrs. R. L. Steu of Cameron has been employed as an instructor in the Lathrop System.

Mrs. Barbara LaMar Gromer, Maryville, has been employed to teach home economics in the Sheridan highschool.

Chrys Schroeder, a principal at Neosho, has resigned to accept the principalship of the new John J. Pershing school in Springfield.

C. Benton Manley, director of secondary education, Springfield Public Schools, has been promoted to administrative assistant in charge of population studies, census, research planning, pupil accounting, and attendance.

Joe Vance has been employed to teach industrial arts and mathematics

Central Missouri State College sponsored a custodial training school, June 4-7, in cooperation with the Section of School Building Services of the State Department of Education. E. F. Allison, Assistant Director of School Building Services, was in charge of the general program. In-

structors were: Harry L. Barnes, Cottey College, Nevada; John Drake, Clever; Earl Cornelison, Columbia; and China Slaughter, Liberty. A total of 108 men from 27 school systems enrolled.

in the Crocker highschool. He graduated from Southeast State College last May.

Max Miller, 26 year old junior high-school social studies teacher in St. Clair, won last May second prize of \$5000 in the St. Louis Globe-Democrat contest "What's My Name."

George Heltzell, superintendent of the Clinton public schools for the past five years, has accepted an appointment as superintendent of the Missouri School for the Blind in St. Louis. He succeeds Robert Thompson who resigned to become head of the Michigan State School for the Blind.

J. R. Felton, formerly county superintendent of the Douglas County schools, is now employed as a representative in Kansas and Missouri for the Harlow Publishing Corporation of Oklahoma City. Mr. Felton lives in Wichita, Kansas.

Paul E. Vaughan, representative of educational publishing companies in Missouri for the past 21 years, has recently become associated with the Harr Wagner Publishing Company of San Francisco, California. Territory to be covered by Mr. Vaughan will include the states of Missouri and Kansas. The Harr Wagner firm specializes in publishing elementary textbooks. Mr. Vaughan will continue to reside in Columbia, Mo.

Dr. W. E. Drake, professor of history and philosophy of education, University of Missouri, for the past 18 years, resigned to accept a similar position at the University of Texas, Austin, Texas. He begins his duties Sept. 15.

Florence Smith of the Kansas City public schools has been given credit for securing 100 life memberships in the National Education Association. These were all credited to Missouri and helped Missouri to go well over

the top in its drive for funds to help build the NEA Center in Washington.

Mark A. Boyer, principal of the Delmar-Harvard Elementary School, University City, will succeed J. E. Baker as principal of the University City highschool effective September, 1958. Mr. Baker retired as principal ending last year but is remaining in the system for one year to conduct a study of highschool graduates to determine what parts of the program they consider to be of greatest value.

Byron Callaway, a former Missourian, has resigned his position on the staff at Normal, Illinois to become Associate Professor at Alabama Polytechnic Institute.

Clifford L. Corley, a former Missourian and for the past two years at Oregon College of Education, Monmouth, Oregon, has this year joined the staff of Washington State University.

Imon Bartley, associate professor of education, Westminster College, Fulton, has resigned to accept a position as associate professor of education, college of education, Drake University, Des Moines, Iowa.

Mrs. Lillian Miller, a teacher in the Butler system last year, has moved to Hickman Mills.

Patty Ann Wickizer, a recent graduate of the state teachers college at Kirksville, has started her professional career as a commerce teacher at Galatin.

You like it....it likes you!

Yes, indeed—7-Up with lunch! And she'll feel better, work better after this refreshing energy lift.

Larry Keisker, vice-president of the Butler High School student council, presents a three-piece luggage set to Miss Kate Walker, English and social studies teacher, who retired last May after 51 years of teaching, 38 of them in Butler. Larry is the son of school superintendent M. G. Keisker and Mrs. Keisker.

Richard Reno and Dorothy Reno of Wellington have accepted employment in the Orrick system.

Mrs. Ethel V. Park, special education teacher at Lexington, has accepted a position in North Kansas City schools.

Aubrey O. Pittenger, Callao, is now teaching at Buckner.

Mrs. Cora Bethel Wright, Lowry City, has moved to the Kansas City school system.

Donna Faye Long has been employed to teach commerce in the Shelbyville high school.

Edward England, Butler, has accepted a position at Carthage.

SUPERINTENDENTS ELECT NEW OFFICERS

The Missouri County Superintendents Association at its meeting in Jefferson City, June 4, elected the following officers to serve this year: Chester A. Lemery, president; Fred Morrow, first vice-president; Elmo Ingenthron, second vice-president; Maude Robertson, secretary; and Vera Rinehart, treasurer.

M. B. VAUGHN HONORED BY JAYCEES

M. B. Vaughn, formerly superintendent of the Montgomery City public schools, was recently honored by the

Montgomery City Junior Chamber of Commerce.

Mr. Vaughn was presented the Senior Citizen Award at a Distinguished Service Award banquet held at the Catholic school in Montgomery City.

EDUCATION WEEK NEEDS PLANNING NOW

Plans should be made now for American Education Week Nov. 10-16. The NEA offers a wide variety of materials for this observance. A

packet of basic materials includes a speakers and writers handbook, a planning manual, a poster and 10 other selected items. It costs \$1.25 and is available from the NEA, 1201 16th St., N.W., Washington, D. C.

Among the numerous additional items that may be obtained are mats suitable for newspaper advertisements, stencils, motion pictures, movie and TV spot advertisements, radio transcriptions and scripts, plays and pageants, booklets and leaflets, display materials and special suggestions for church programs.

PATTERN FOR POWER

YEAR AFTER YEAR, Kansas City's pattern of growth has called for more and more electric power. And the site of Montrose Station, located 60 miles southeast of the Metropolitan Area, truly forms a "pattern for power."

This new steam-electric generating plant is scheduled to begin delivery of more power into the Kansas City Power & Light Company electrical system in the summer of 1958. The first turbogenerator — one of the largest ever designed and built for use in this section of the country—will have a capability of 175,000 kilowatts; the second unit, equal in size is planned for operation in 1960.

Montrose is an outstanding example of the long-range planning necessary to fulfill our responsibilities for meeting the expanding needs of our service area. It illustrates our continuing endeavor to provide ample electric power for all customers . . . in whatever amounts they may require it.

INVESTMENTS IN NEW PLANTS AND FACILITIES:

10 years, 1947-1956.....\$191 Million

4 years, 1957-1960 (Planned).....\$ 99 Million

DR. A. G. CAPPS HONORED BY ADMINISTRATORS

A. G. Capps, professor emeritus, college of education, University of Missouri, was honored at the dinner meeting of the Missouri Association of School Administrators sponsored jointly by Gamma Chapter of Phi Delta Kappa and Missouri Association of School Administrators held in Columbia, June 17.

Dr. Ralph K. Watkins, chairman of faculty committee, University of Missouri, recounted the contributions and services of Dr. Capps to the field of education in this state.

Roi S. Woods, superintendent of the Joplin public schools, speaking for the MASA, presented Dr. Capps with an engraved hand school bell and a beautiful wrist watch.

MISSOURIANS ATTEND FRANKFORT MEETING

Two Missouri educators were among the 250 delegates attending the sixth annual conference of the World Confederation of Organizations of the Teaching Profession meeting in Frankfort, Germany the forepart of August.

Delegates from Missouri were Philip J. Hickey, superintendent of instruction, St. Louis, and president of the American Association of School Administrators, and Thelma Wilkerson, classroom teacher, Kansas City.

Recognizing teacher shortage as a world problem conferees studied conditions in 37 countries as a basis for discussion and solution. Sir Ronald Gould of England is president of WCOTF.

INTERNATIONAL READING ASSN. MEETS OCTOBER 5

The Western Missouri Area Meeting of the International Reading Association will meet Saturday, October 5 in the Central Junior High School, 3600 E. Linwood Blvd., Kansas City, Mo.

The morning session, which begins at 9:30, includes a lecture entitled "The School's Responsibility for Retarded Readers" by Dr. Helen M. Robinson, Director, Reading Laboratory, University of Chicago and a demonstration on "A Fifth Grade Reading Lesson" to be taught by a teacher from the Kansas City public schools.

The afternoon session, which begins at 1:45, includes a demonstration on "A Second-Grade Reading Lesson" by a teacher from the Kansas City public schools and a lecture on "The Development of Reading Skills" by Dr. Helen M. Robinson.

The registration fee for one session is \$1.00 and for two sessions is \$1.50.

UNITY

SOUTHWEST BAPTIST ACCREDITED

Southwest Baptist College of Bol-
ivar has been elected to membership
in the North Central Association of
Colleges and Secondary Schools.

The school's credit will now be ac-
cepted by all colleges and universities
in the United States; previously it was
accredited by the University of Mis-
souri.

John W. Dowdy is president of
Southwest Baptist College.

TEACHER SORORITY INITIATES FIVE

The Missouri Chapter of Alpha
Delta Kappa, national honorary so-
rority for women teachers, initiated
five new members at a meeting in
Harrisonville, February 19.

They were: Mildred Blevans, Vera
L. Evans, Margery Johnson and
Bonnye C. Ragner, all of Pleasant
Hill, and Mrs. Sarah Lillian Rushford
of Windsor.

CONTRACTS

Contract of board of education,
chairman of which is employed by a
company furnishing school transporta-
tion to the school district and in which
contract the chairman has a pecuniary
interest, is void.

BLIND PENSION FUND

It is the duty of the State Treasurer
to transfer any balance remaining in
the blind pension fund at the end of
the biennium into the distributive pub-
lic school fund.

TEACHER'S REGISTER

The public has the right to inspect
and copy contents of school teacher's
daily register required by Section
163.140 RSMo. 1949, provided the ex-
ercise of such right does not unduly
interrupt discharge of duties. The
Board of Education or Superintendent
of Schools has no discretion in
denying or permitting inspection or
right to request a statement of
purpose.

EQUALIZATION QUOTA

In computing the equalization quota
a school district can count all resident
children attending public school in
another district, provided the home
district pays the tuition, but, not i.
the student himself is paying.

MONEY FOR TEACHERS

The County Treasurer should place
80 percent of state school moneys re-
ceived by him for common school
districts in teachers' fund upon receipt
thereof and remaining 20 percent in
either incidental or teachers' fund
when and as directed by school board.

exciting "space tour" projects

New booklet, with recording of sound
effects, meets today's classroom need
for ideas and projects that fit in with
youths' mounting interest in outer space.

This booklet presents SPACE TOUR
PROJECTS and TRIP TO THE MOON—
complete with dramatic phonograph
record of authentic rocket flight and
other sounds. By Bruce Miller, Supt.
Schools, Riverside, California.

Students thrill over interplanetary
trip; sounds; spacemen interviews;
research; and aids anyone can use
regardless of science background.

This booklet gives a fresh, workable
approach in reaching imaginative
minds. Included is a source list of
free and inexpensive material. Also,
it gives you a reading guide.

Chapters cover mood environment;
visual aids; suggestions for dioramas,
models; directions for making *Class-
room Space Ship*, space clothing,
helmets, oxygen kits, gas gun; etc.
Your entire group can take part.

Even Farewell Dinner to parents is
suggested: invitations, speeches, food.
It's a big event—going to the Moon.

To obtain booklet, described, SPACE FRONTIERS, UNLIMITED—complete
with SOUND EFFECTS RECORD (standard size 45 RPM; unbreakable) write BRUCE MILLER,
Box 369, Riverside, California. Send name, address and \$1 postpaid.

For a refreshing, little "pick up"!

The cool, lively flavor and pleasant,
natural chewing of delicious
Wrigley's Spearmint Gum give you
a little lift—and is never rich or filling. Try it.

LATE VACANCIES

Many fine positions are now listed with us. If you are available, write
us at once. September is our third heaviest placement month. Send us
immediately a complete outline of your training and experience, together
with recent photographs and you will be notified of positions on file which
might interest you.

SPECIALISTS EDUCATIONAL BUREAU

508 N. Grand Blvd.—Tel. No. JE-3-6245—St. Louis 3, Mo.

Member of National Association of Teachers Agencies

It's our **20th!** Anniversary

And we've got another 20 coming!

OUR THANKS to all the teachers and administrators who have helped make our 20th year in the school picture business the most successful ever. Over 100,000 pupils in Missouri had their individual or group pictures taken by NATIONAL SCHOOL STUDIOS last year.

Every year new photographers have entered the individual picture field, but, finding this a highly specialized field, just as many have dropped out of this field.

NATIONAL SCHOOL STUDIOS, with an ever increasing quality and service to the students and school, has continued to grow. Consider our experience and background before making your picture arrangements for next year.

New Additions to the National School Studio Program for this year:

- (1) Full color pictures with color film have been added to our program so that now we have five (5) different photo finishes to select from. Many different envelopes include composite group pictures.
- (2) Large wallet pictures will be printed on double weight silk finish.
- (3) We are now associated with the Walsworth School Annual Publishing Co., Inc., of Marceline, Mo., which will give your students the best picture-annual combination in America.

W. L. Cassell, president of the Board of Education of Rock Creek School District, converses with the honoree, Superintendent Tom Korte, at a recent dinner in Kansas City. Mrs. Korte and their son, Tommy, are also shown.

KORTE HONORED AT BUFFET DINNER

The Rock Creek Employees Association of Independence presented their superintendent, Tom D. Korte, a life membership in the National Education Association at a buffet dinner given in honor of his birthday.

The association also entertained members of the district Board of Education at the same celebration. The board is no longer functioning since the recent annexation of the Rock Creek District to the Kansas City School District.

Korte has been superintendent at Rock Creek for 19 years.

DELEGATES VOTE \$10 DUES

The 1957 Delegate Assembly of the Kentucky Education Association recently voted an increase in dues for next year. The membership dues will be \$10—\$1 of which will be returned to the district associations.

HIGHER EDUCATION POLICIES SET

The NEA Educational Policies Commission has prepared a statement on higher education, "Higher Education in a Decade of Decision."

The Commission views American higher education as at a critical point in its development and the American people as faced with determining the social policy of advanced curricula, its aims, who should get its benefits, who should teach, how it should be financed.

The 192-page volume discusses these questions and presents some conclusions and recommendations addressed to professional educators and the general public.

It may be purchased for \$1.50 from the Educational Policies Commission, 1201 Sixteenth St., N. W., Washington 6, D. C.

HUNTING CLASSES STRESS SAFETY

Need for public instruction in safety hunting has been an increasing concern in the past decade according to F. O. Capps, educational chief of the Missouri Conservation Commission.

Approximately 2,500 fatal accidents occur annually due largely to carelessness in handling firearms at home or afield. Nearly 1,000 of these accidents occur in the home.

To help curb this needless loss of life the Conservation Commission has trained 136 field personnel as hunting safety instructors. These individuals will schedule training classes for responsible adults who wish to pass on their knowledge to Missouri youth. Classes may be arranged by contacting conservation agents, educational advisors, or field service agents.

IMPORTANT EVENTS

SEPTEMBER

MRS. BAKER ACCEPTS COLLEGE POSITION

Mrs. Rosemary Baker, music supervisor, Aurora public schools, has resigned this position to accept employment at Southwest State College, Springfield.

Rosemary Baker
college during summer sessions.

Mrs. Baker is first vice-president of the Missouri State Teachers Association and a member of the executive committee. This past summer she did graduate work at the University of Missouri.

Two New MSTA Films Available

Two new films have been added to the list of free films available through your Missouri State Teachers Association.

"Not By Chance" is a film designed to interpret the character, nature and quality of modern teacher education to the public and to the education profession. It should prove helpful in

teacher recruitment. It is available in color or black and white with a running time of 28 minutes.

"Not By Chance" was produced by a committee of representatives of the National Education Association, the Missouri State Teachers Association and the American Association of Colleges for Teacher Education.

The film "Not By Chance" has also been purchased by the Adult Education and Extension Service, Film Library, University of Missouri, Columbia; Central Missouri State College, Warrensburg; Northeast Missouri State Teachers College, Kirksville; Southeast State College, Cape Girardeau; and Graduate Institute of Education, Washington University, St. Louis. Contact these institutions for a print.

"No Teacher Alone" is the title of the second new film which will provide a program about the organization and work of the National Education Association. It will help to build professional solidarity and stimulate more active participation in teacher organization work.

"No Teacher Alone" should be used for community association meetings, faculty meetings and future teacher of America chapters and clubs. It has a screening time of 20 minutes and is available in color.

To schedule the above films write to your Missouri State Teachers Association, Columbia, Missouri.

Storyteller, Poet,
Teacher, writes a
letter---

"*Literature of Adventure* arrived Monday and I've finished reading it. A few of the poems and stories I didn't read because I'd read them before. I think this is an excellent book and it should have many new adoptions. The selections are excellent and the book is a nice, neat finished project. I am very happy to have both story and poem in this book."

Write for Circular #434 for detailed description of the 4 fine books of the Literature for High Schools series, which offer a developmental reading program, and the comprehensive handbooks that accompany them.

NEW EDITION

Written specially for young girls just beginning to menstruate

Your students may be too shy to ask questions about menstruation.

This beautiful new edition of "Growing Up and Liking It" explains menstruation with clarity and warmth. Endorsed by doctors and educators, it's a wonderful supplement to classroom discussions. FREE, from the makers of Modess® Sanitary Napkins and Belts.

Other free educational materials:

"How Shall I Tell My Daughter?"—valuable booklet for mothers.

"Molly Grows Up"—award-winning movie for girls 9 to 14...excellent for showing to mothers. 16 mm., black and white, sound, runs 15 minutes. (On free loan.) Complete with Teacher's Guide.

"Educational Portfolio on Menstrual Hygiene"—anatomy chart, general teaching guide, above booklets.

OFFER GOOD ONLY IN U.S. AND CANADA

The Lucy Wortham James Memorial Library in St. James provides special services to community youth. It circulates over five thousand childrens' books to area elementary pupils and has a large collection for highschool students. It also conducts pre-school story hours.

ST. JAMES FOUNDATION BUYS SITE FOR SCHOOL

The James Foundation has granted \$30,000 to the St. James Board of Education to purchase a nine acre grade school site.

While the Foundation does not generally provide facilities that are primarily municipal responsibilities, in making this gift, Ralph Hayes, chairman, said, "We feel justified in this grant because Superintendent Louis Donati and other town officials have been such fine friends, and we want to encourage improved educational facilities for the area."

In 1953 the Foundation built the Lucy Wortham James Memorial Library in St. James. The library has 5,500 juvenile books available to elementary pupils. A duplicate set is furnished rural school children. High school students have access to 2,500 volumes.

The foundation is financed from the Lucy Wortham James Memorial Trust.

BOOKLET REPORTS EXPERIMENT

An experiment in early admission to college of superior students reveals that this group not only outperformed their classmates by a wide margin academically, but also outperformed a control group of students who had entered the same colleges at the normal age and were roughly equal to the early admission scholars in academic aptitude.

The experiment, conducted by the Fund for the Advancement of Education, indicates that a new and promising approach to meeting the educational needs of the nation's ablest students has been found.

Four groups of 1,350 students about two years younger than the average college freshman participated in the program.

An evaluation report detailing and analyzing the experiment is available from the office of the Fund for the Advancement of Education, 655 Madison Ave., New York 21, N. Y. It is entitled "They Went to College Early" and can be obtained without charge.

LICKING DISTRICT REORGANIZES

The Licking Consolidated School District and seven adjacent districts voted last April 8 to reorganize. This is the first reorganized district in Texas County according to Roscoe F. Carter, county superintendent of schools.

FAIRS PROVIDE SCHOOL PUBLICITY

NEA has issued a new pamphlet on providing a "show window" for the school. The 17-page, illustrated publication outlines the organization and development of exhibits and other activities at community fairs to portray and interpret the school program.

In nearly every community, says the pamphlet, it is possible to utilize the annual fair as a valuable public relations tool for schools.

"Education Goes to the Fair" is available from the National Education Association, 1201 16th St., N.W., Washington 6, D. C.

KNOX RESIGNS ADMINISTRATIVE POST

Dr. Wm. F. Knox, Director of Public Service, Central Missouri State College, has requested to be relieved from administrative duties and to be assigned to full time teaching services, effective September 1.

Dr. Knox has been Director of Public Service since 1937, coming to the college after twenty-five years of administrative experience in the public schools of Missouri.

"I have long believed that administrative officers should surrender administrative responsibilities upon attainment of age sixty-five," Dr. Knox said. "In conformity with that belief I have requested that I be reassigned. While I have enjoyed administrative work, my chief satisfaction has been through teaching. I am looking forward with enthusiasm to full time teaching."

Dr. Harold L. Young, who is completing his third year on the college faculty, has been named Director of Public Service.

FERGUSON PRINCIPAL TAKES AIR TOUR

John S. McCollum, principal of Ferguson High School, Ferguson, attended with 20 other members of the National Association of Secondary School Principals a special Air Force tour, May 5-9.

John S. McCollum

The trip included an aerial firepower demonstration at Elgin Air Force Base, Florida, and opportunities to observe educational activities at other air force bases.

McCollum has been in the Ferguson school system 22 years, has served as vice-president of the St. Louis Suburban Teachers Association and has been Chairman of the County Principals.

Jim Brockman, Lee's Summit High School principal, was also a member of the air tour group.

CONTINENTAL CASUALTY COMPANY SLOGAN

The theme "An Educated People Moves Freedom Forward" of the National Education Association Centennial year is being used as a meter slogan by the Continental Casualty Company of Chicago. This is the company that underwrites the MSTa group accident and sickness insurance. Since the company mails thousands of letters the slogan will be seen from coast to coast.

NEA HISTORY TELLS STORY OF PROGRESS

How the National Education Association grew from its founding by 43 educators in Philadelphia in 1857 to become the professional organization of 700,000 teachers is the story of educational progress. This is the theme of Edgar B. Wesley's book "NEA: The First Hundred Years" published by Harper & Brothers.

Author Wesley presents in his 419-page work the major discussions, controversies and agreements among American teachers over the past century.

Through its conventions and publications the NEA has played a large role in educational reforms and progress. It worked for the public high-school, both education's daring and problem child. In 1918 its Commission on the Reorganization of Secondary Education issued seven cardinal principles which had a tremendous influence on education.

The NEA story is the stormy history of an educational movement that attempted to balance itself in a world that changed overnight.

PRINCIPALS ELECT JULIA SCHMIDT

Julia B. Schmidt, St. Louis, was elected the new president of the Department of Elementary School Principals at its spring conference at the University of Missouri last April.

Julia B. Schmidt

Miss Schmidt is principal of Blow and Mad-dox Schools in St. Louis, a former teacher of all grade levels in elementary schools of St. Louis whose first interest is the teaching of primary children.

The new president is a member of the MSTa executive committee and a past president of the St. Louis Teachers Association. She is past president of the St. Louis Elementary School Principals' Association and past president and founder of Pi Chapter of Delta Kappa Gamma.

Other officers are Edward Gilbert, Cape Girardeau, vice-president, and Paul G. Fleeman, Columbia, secretary-treasurer, who was re-elected.

STAFF UTILIZATION BOOKLET ISSUED

J. Lloyd Trump, University of Illinois professor of education, is the author of a new booklet on the utilization of the staff of the elementary school.

The booklet publishes the results of a recent study of that subject, including the effect of the teacher shortage on the individual school, the role of the teacher and how schools may organize their own staffs to make better use of their teachers.

Copies of the 35-page booklet may be obtained from the Commission on the Experimental Study of the Utilization of the Staff in the Secondary School, 200 Gregory Hall, Urbana, Ill.

KWK-TV TELECASTS MSTA FILMS

Television station KWK-TV of St. Louis has used many of the MSTa-NEA films for its programs.

During the month of July KWK's Larry Cooper, director of Education and Public Service, used the following films: "Mike Makes His Mark," "Freedom to Learn," "Skippy and the 3 R's" and "Secure the Blessings." "A Desk for Billie" was telecast in two parts, Aug. 4 and 11.

Television stations in Missouri have been most cooperative in programming films from the library of your Missouri State Teachers Association. If your local television station has not used these public service features, why not contact the educational director and call the MSTa film list to his attention.

School Aid Bill Defeated

Proposed federal support for school construction was killed on July 25 by the House of Representatives for this session of Congress. The measure was defeated by a vote of 208 to 203.

Action on the bill came in the form of a motion by Representative Smith of Virginia to strike out the enacting clause which is a parliamentary procedure to kill a measure.

Nine of Missouri's congressmen voted in the interest of education. Two voted against school children having adequate housing.

The nine House members voting against the motion to kill the measure were: Richard Bolling, Kansas City; Charles H. Brown, Springfield; A. S. J. Carnahan, Ellsinore; George H. Christopher, Butler; Paul C. Jones, Kennett; Frank M. Karsten, St. Louis; Morgan M. Moulder, Camdenton; Mrs. John B. Sullivan, St. Louis; and Thomas B. Curtis, Webster Groves.

Voting against support for school buildings were Representatives Clarence Cannon, Elsberry, and W. R. Hull, Jr., Weston.

MISSOURIANS WRITE SAFETY ARTICLES

Two Missouri educators have articles in the 24th volume of Congress Transactions, the record of 44th National Safety Congress.

This volume—on school and college safety—carried articles by Thelma Reed, principal of Frances Willard School in Kansas City, and State Commissioner of Education Hubert Wheeler. Miss Reed wrote on Roy Rogers' School Safety awards, of which she is committee chairman, and Commissioner Wheeler discussed the part the school plays in state and national safety.

The Safety Congress is a gathering of 12,000 safety experts in Chicago to discuss safety attitudes, methods and equipment. The meeting which this volume reported was held Oct. 22-26 of last year.

Two other Missourians participated in the conference. They were: Dr. Roy F. Little, director of curriculum and safety for Springfield Public Schools, and Helen Manley, director of health, physical education and safety for University City Public Schools.

Workshop Planned By Classroom Teachers

The Department of Classroom Teachers of the Missouri State Teachers Association will hold its fall workshop Saturday September 14, and Sunday, Sept. 15, at Bunker Hill Ranch Resort.

Richard Bradley

One of the featured speakers will be Mr. Eric Rhodes, Salary Consultant, National Education Association, Washington, D. C. according to Richard Bradley, president of the Department. Mr. Rhodes will speak on cooperatively forming salary schedules. There will follow a question and answer session.

President Bradley is planning the program to include another principal speaker. At the time this was being written he had not been able to complete arrangements in this respect.

Registration for the workshop will begin Friday evening, September 13. It is suggested that teachers be sure to make their reservation in advance by writing to Mr. Joe Evans, Bunker Hill Ranch Resort, Mountain View, Missouri, or by telephoning Mr. Evans. The number is 40F21.

CAPE INTRODUCES PHYSICS ON FILM

A complete physics course on film is being offered southeast Missouri schools by Cape Girardeau State College, the first college in the United States to institute this service.

The film series is designed for high-schools that lack science teachers, and consists of 162 films of 30 minutes duration. It includes both lectures and laboratory explanations as presented by Dr. Harvey E. White, professor of physics at the University of California.

The films were made by Encyclopedia Britannica Films, Inc., the world's largest manufacturer of educational films. R. B. Potashnick, Cape Girardeau contractor, made them available to the college through a \$13,500 gift.

Springfield, Nov. 13
St. Louis and St. Louis County,
Nov. 18-22
Smithville (1 to 3:30 p.m.), Dec. 4
Grandview during the day, Raytown
at 7 30 p. m., Dec. 5
Lexington (1 to 3:30 p.m.), Dec. 6
Shelbina, Feb. 4
Pike County at Louisiana, Feb. 5

PROMOTIONS IN ST. LOUIS

Glynn E. Clark, principal of Soldan highschool, St. Louis, has been appointed president of Harris teachers college.

Clark succeeds Charles A. Naylor, who was named an assistant to the Superintendent of Instruction. The position of assistant to the superintendent is a new one.

Superintendent of Instruction Philip J. Hickey explained that the job of assistant, of which there are three, is roughly equivalent in duties to the existing job of director of education, except that the assistants will have more authority.

The other two assistants named by Hickey are L. H. Dieckroeger and J. Ernest Kuehner, both directors of education. The appointments were effective July 1.

New assignments of six highschool and seven elementary school principals has been approved.

In the highschools, Otto P. C. Rost, principal of Central, was appointed principal of Soldan; A. B. Jordan, assistant principal of Hadley, was named acting principal of Central; C. Spencer Tocus, principal of Vashon, was appointed principal of Hadley; A. C. Phillips, principal of Hadley, was assigned as principal of Vashon; Carl W. Brown was promoted from assistant principal of O'Fallon to acting principal, and Robert M. Young was promoted from acting principal of Southwest to principal.

Raymond J. Sacks, supervisor of

trade and industrial education at O'Fallon, was appointed acting assistant principal; John E. Anderson, Jr., a teacher at Soldan, was named acting assistant principal of Sumner, and Frank T. Lyerson, a teacher at O'Fallon, was appointed acting assistant principal of Hadley.

DEATHS

F. D. CAIRNS

F. D. Cairns, teacher of commercial subjects in the Flat River Junior College, died April 15.

GEORGE LEO COLE

George Leo Cole, 87, died last May at his home in Richland. He was formerly superintendent of schools at St. Clair, Dixon, Marshfield and Richland.

In 1921 Mr. Cole was appointed state highschool inspector and later became state training school inspector under State Superintendent of Schools, Sam Baker.

JOHN MCINTOSH GIBBONS

John McIntosh Gibbons, 41, band and instrumental music teacher in the Centralia public schools, died May 16. He held degrees from Drury College and the University of Missouri.

RANDALL COCHRAN

Randall Cochran, 49, guidance counselor in the Kirkwood highschool for the past 16 years, died June 1 following an illness of several months.

MRS. GORDON KING

Mrs. Gordon F. King, 51, retired Columbia school teacher, died December 20, 1956. She taught in the Columbia public schools for 10 years retiring in 1954. Mrs. King graduated from the University of Missouri in 1930.

ALVA F. LINDSAY

Alva F. Lindsay, legal counselor for the St. Joseph Public Schools for nearly 24 years, died suddenly last April 29. The climax of his career came in 1944 when he was a delegate to the State Constitutional Convention. He served as chairman of the very important Education Committee.

LET AUDICORD HELP YOU!

AUDICORD offers you a quick and convenient system for recording actual school bus attendance in accordance with State Laws. The use of this system will provide an easy method of recording daily, monthly and annual transportation data, necessary for the compilation of state reports.

AUDICORD also furnishes reports which can be audited at any future time. Let it help your district establish definite proof of bus attendance.

AUDICORD system consists of a compact machine or device which can be permanently installed in the bus interior, within easy reach of the driver, together with three forms for recording daily, monthly and annual attendance and other data.

Write for free circular explaining the AUDICORD System.

MISSOURIAN AUTHORS FINANCE TEXT

A former Missourian is one of the authors of a new college text on school finance. "School Finance, Its Theory and Practice" is published by the Ronald Press Company and written by William Everett Rosenstengel and Jefferson N. Eastmond.

Professor Rosenstengel was formerly superintendent of schools at Columbia, Mo., and is presently professor of education at the University of North Carolina. He has taught such courses as public relations, school finance and business management, school plant planning and personnel administration at North Carolina since 1939.

MISSOURI U. OFFERS NEW CERTIFICATE

The University of Missouri Graduate School Department of Education is offering a new intermediary degree between the master's and doctor's degrees, known as the Certificate of Specialization.

These certificates will enable students who intend to qualify for positions with requirements beyond the master's degree to plan a second year of graduate work as an organized program leading to a specified professional goal.

Designated areas of specialization include school superintendency and administration, guidance, secondary and elementary teaching, and agricultural, industrial, distributive and home economics education.

The program for the certificate will consist of a minimum of 30 semester hours of organized graduate work beyond the requirements for a master's degree. A candidate must show satisfactory evidence of knowledge of educational statistics and research techniques to enable him to understand and to utilize research contributions in his area of specialization.

Also, a candidate must take a qualifying comprehensive examination as well as a final examination, either oral or written.

FOREIGN LANGUAGES IN ELEMENTARY SCHOOLS

Twelve elementary school classrooms in Clayton engaged in the teaching of foreign languages during the past year. The languages were Spanish and French in grades which varied from first to eighth, with second and fifth grades predominating.

The consensus is that languages should be started early, preferably in kindergarten or the first grade. The first year or two should be devoted to training ear and vocal organs.

The general reaction has been that the children are interested and enthusiastic about the program. The difficulties involved in the program at the present time revolve around the problem of providing continuity. Since not all teachers have the requisite language background and interest, the problem of continuity is a difficult one.

NEW TEACHER

(Continued from Page 20)

supervision throughout the school year designed to win the respect and confidence of the new teacher.

The foregoing suggestions may appear quite obvious to many in the teaching profession. That is precisely the reason why they incur the danger of being overlooked. Missouri is a state noted for the warm hearted friendliness of its inhabitants. Let's make sure, as teachers, that we uphold this tradition. Only then will the new teacher in your school be able to say, "Why, I've been here only a few weeks and already I feel like an old hand."

The Men's Club of Maplewood-Richmond Heights School District recently honored these men, who had completed 25 years of service within the district. Left to Right: E. R. Adams, R. L. Pigott, D. D. Crooks, Ray Elsbury, D. L. Roberts, C. C. Brown and Warren J. Coy, president of the club.

NEW DEANS AT CENTRAL MISSOURI STATE COLLEGE

Dr. Frieda Grieder

Dr. Frieda Anne Grieder, dean of Women and Dr. D. W. Tieszen, dean of instruction assumed their duties at Central Missouri State College, August 1.

Dr. Grieder comes from Western Carolina College at Cullowhee, N. C., where she served as dean of women. She has served in a similar capacity in other colleges and schools, and has had teaching experiences on all levels.

Holding membership in some dozen national educational organizations, Dr. Tieszen comes to CMSC from Spearfish, S. D., with 5 years experience as a college dean. In addition, he has taught on all levels and has been a public school administrator for several years before entering the college field. A former president of the South Dakota Education Association, and a former director of South Dakota Boy's State, and a nationally known leader in citizenship education, Dr. Tieszen has been active in numerous professional and civic affairs, having headed some ten groups.

BUY AND HOLD SAVINGS BONDS

Thousands of the men and women connected with Missouri's schools—and many hundreds of their pupils, too—are buying U. S. Savings Bonds regularly, adding to their already sizeable holdings. For this reason we call your special attention to the following explanation of the favorable changes made recently in these Bonds.

Series E Bonds

All E Bonds bearing issue dates of February, 1957, or after, earn 3½% when held to maturity as against the former rate of 3% (compounded semi-annually). They mature 9 months earlier—in 8 years and 11 months, instead of 9 years and 8 months. They pay a substantially higher return in the early years of holding, 2¼% when

Dr. D. W. Tieszen

held a year as against about 1½% on the old Bond, and pay 3% when held 3 years as against 2¼% formerly.

It is wise to hold old Bonds instead of cashing them in to buy new ones, for any Bond that is 2½ years old or older and has not reached first maturity already, will earn more than 3¼% on its redemption value as it grows to maturity.

Those having Bonds more than 10 years old and that are now in the extension period, should think twice before redeeming them to buy new Bonds. A Bond which matured May, 1951, through April, 1952, already will earn more than 3-3/8% on its redemption value to extended maturity.

In addition, there is the income tax consideration. Most people pay income tax on the total interest earned on E Bonds as of the year in which the Bonds are redeemed. Continuing to hold the old Bonds means that the tax can be deferred until money is needed, so that interest is earned on the accruing tax liability. In many cases paying the tax earlier will largely offset any gain from the higher rate of interest on the new Bond.

There is also a tax advantage in continuing to hold old Bonds for people who expect to be in a lower tax bracket when they redeem their Bonds for retirement income. These income tax advantages to holding the old Bonds instead of exchanging them for new ones are considerable.

Series H Bonds

All H Bonds have also been improved, effective February 1, 1957. These are the Bonds which pay interest by government check every six months.

The New H Bonds pay 3¼% when held to their full 10-year maturity. They can now be held 4 months longer at this rate, as their former term of maturity was 9 years and 8 months.

EDITORIAL

Legislature Improves Schools

FROM different quarters one hears varied and sundry opinions as to the effectiveness and level of work of the Sixty-ninth General Assembly of Missouri.

We don't purport to judge or evaluate the work done by the last assembly in any area except as it pertains to public schools.

Legislators were courteous, friendly and intensely interested in educational issues. This pattern has been developing over the past few years. In part it is a reflection of the recent growth in interest on the part of the public and in part it is due to better interpretation of educational problems by members of the profession.

Over 900 bills were introduced during the five-month session and educational proposals were numerous.

A legislator may be familiar with basic guide lines in two or three fields but in most cases he must do a lot of searching to separate the good bills from the bad in areas of which he has limited knowledge and experience.

Many educational bills were passed. Some of these pertained to school finance, juvenile delinquency, special education, powers and duties of boards of education, teacher retirement and compulsory school attendance age.

Several significant proposals were passed and to our knowledge no really harmful measures were approved. We are thankful for a legislature so deliberate and conscientious in its actions so as to achieve this record.

Party politics were at no time injected into the consideration of educational measures. This is as it should be.

The two main objectives of your Missouri State Teachers Association were achieved in the full financing of the School Foundation Program and the improvement of provisions for retirement.

For the school year 1956-57 there was available for schools under the foundation program \$67,762,362. This school year according to the appropriation made there should be available

\$73,141,183, or an increase of \$5,378,821 over last year. Not less than 80% of this must be expended for teachers salaries.

Governor Blair in his executive budget requested the full appropriation for schools.

There was no evidence in either the House or Senate Appropriation Committees to indicate anything but wholehearted support for the appropriation.

History was made in this legislative session. For the first time in our memory schools were placed on a budget basis. The appropriation has been made on a dollar basis rather than as a percent of general revenue.

Administrators will be able to predict with more exactness the availability of funds.

It is true that the objectives of the Missouri State Teachers Association were confined to the biggest problems in the field. It is also true that unified support among members of the profession prevailed for these measures. Unless these factors are present success in the Legislature is most likely to be limited.

We are thankful that major educational proposals were already approved by both houses before the closing hours of the session last May 31. Early introduction of legislation and constant vigil is necessary to help beat the last minute deadline and confusion that invariably accompanies it.

It is our opinion that the Sixty-ninth General Assembly and the Governor were deeply interested in the welfare of our schools and gave every evidence of wanting to see them improved.

If you haven't expressed your appreciation to your Representative and Senator and to Governor Blair for their assistance in obtaining full financing of the School Foundation Program and improving retirement, you should do so now.

Education must hold these gains, evaluate its position and be ready to push forward.

Sometime next year the Governor will call a special session of the Legislature. Again it will be necessary to appropriate funds for the Foundation Program. Continue to interpret the financial needs of the schools to your community and your Representative and Senator.
